Ricardo Santoyo

Summary

I am a passionate Full Stack Web Developer that is constantly improving. I am proficient in HTML, CSS, JavaScript, Ruby, React, and Ruby on Rails. You can view some of my projects here ricardo-santoyo.github.io/.

Projects

ConnectU

ConnectU is a single page web application similar to Twitter. The backend api was built using ruby on rails and postgresql as the database. The frontend was built using react.

Technologies used

jwt devise for authentication, rspec, jest, forms for data sending, regular expressions, functional components, use state, use effect, react router dom for frontend routes, jwt_decode, and fetch calls to receive and send data to api.

BattleShip

BattleShip is a frontend web page of the game battleship. The frontend was built using react with test driven development in mind.

Technologies used

jest, react, react dnd to make ships draggable and droppable, functional components, factory functions, forms, regular expressions, and css animations.

Skills

FrontEnd HTML5, CSS3, JavaScript, React, Jest

BackEnd Ruby, Ruby on Rails, Rspec, SQL, Postgresql

Other Git, GitHub, NPM, WebPack, Heroku

Languages English, Spanish, Japanese
